Mob: +91 9270236954

An Experienced **Automation Test Engineer** 3.8 years of expertise in **UI Testing, API Testing, and Test Automation**. Proficient in building and maintaining automation frameworks using **Playwright with JavaScript, Hybrid Framework Architecture, and Selenium WebDriver with Java**. Hands-on experience in **API Testing using Postman**, including request validation, response verification, and end-to-end API workflow testing. Skilled in **BDD Cucumber, TestNG, Cross-Browser Testing, Functional Testing, Regression Testing, and Web Service Testing**. Adept at identifying automation opportunities, improving test coverage, and ensuring software quality through scalable and maintainable automation solutions. Passionate about continuous learning and leveraging modern technologies to accelerate software delivery.

SKILL SET

Manual testing	: Test case design, Test Execution, Bug Tracking and Reporting
Automation Tool	: Playwright, Selenium WebDriver
Programming Language	: Javascript, Core Java, SQL
Framework	: Hybrid Framework, BDD Cucumber, TestNG, POM, Maven
Defect Reporting Tool	: JIRA, ScrumDo
API Testing	: Postman & RestAssured / Playwright
CI/CD & Version Control	: Jenkins, Git, GitHub
Cross-Browser Testing	: Chromium, Firefox, WebKit
Reporting tools	: Extent Reports, Allure Reports, HTML Report.

EXECUTIVE DIGEST

- Strong experience in **Manual Testing, API Testing, and Automation Testing** of web applications across multiple business domains.
- Hands-on experience in designing, developing, and executing automated test scripts using **Selenium WebDriver with Java**, and later migrating automation suites to **Playwright with JavaScript** based on evolving project requirements.
- Experience in building and maintaining **Hybrid Automation Frameworks** using **Playwright, JavaScript** and **Page Object Model (POM)** design principles.
- Experience in building and maintaining **BDD Cucumber Framework** using **Selenium, Java, and Page Object Model (POM), TestNG, Maven**.
- Proficient in **Functional Testing, Regression Testing, Sanity Testing, System Testing, Integration Testing, Cross-Browser Testing, and Black Box Testing**.
- Skilled in analyzing user stories, preparing test scenarios, designing test cases, maintaining traceability matrices, and ensuring complete requirement coverage.
- Hands-on experience in **API Testing using Postman**, including request validation, response verification, HTTP methods validation, JSON response validation, and end-to-end API workflow testing.
- Experience in identifying, documenting, tracking, and retesting defects using **JIRA** and **ScrumDo**, ensuring timely defect resolution.
- Strong understanding of **SDLC, STLC, Agile Methodology, Scrum Ceremonies, and Defect Life Cycle Management**.

- ☞ Experienced in implementing **BDD Cucumber Framework & Hybrid Framework**, developing reusable automation components, and maintaining scalable automation solutions.
- ☞ Hands-on experience with **Playwright Locators, Auto-Waits, Assertions, Screenshots, Tracing**, and **Cross-Browser Testing** across **Chromium, Firefox**, and **WebKit** browsers.
- ☞ Good knowledge of **SQL** for database validation and backend data verification.
- ☞ Experienced in using **Git, GitHub, Maven**, and **Jenkins CI/CD** for source control, build management, and automated test execution.

PROFESSIONAL EXPERIENCE

☞ Working as an **Automation Test Engineer** at **Infostretch Solutions Private Limited**

Roles and Responsibilities:

- Understanding the User Stories
- Writing Test Scenarios and Test Cases/Test Scripts
- Participation in meetings
- Analysis of customer requests
- Software bug tracking
- Analysis and execution of test cases
- Maintaining contact with test managers

PROJECTS HANDELED

Project #1

Client:	USA
Domain:	E-Commerce
Project Name:	FurniCart

Description: FurniCart is an E-commerce domain project, where customers can order the product online.

Roles and Responsibilities

- Involved in analyzing business requirements and collaborating with Business Analysts to ensure complete understanding of application functionality and testing scope.
- Responsible for test planning, estimation, execution, and timely delivery of testing activities for assigned modules.
- Designed and executed comprehensive test scenarios, test cases, and test data based on business requirements.
- Performed **Functional Testing, Regression Testing, Sanity Testing**, and **Cross-Browser Testing** to validate application quality and stability.
- Identified, logged, tracked, and verified defects using **ScrumDo**, ensuring timely resolution through effective collaboration with development teams.
- Conducted **API Testing using Postman**, including validation of request/response payloads, HTTP status codes, CRUD operations, and business rule verification.
- Identified automation candidates and developed reusable automation scripts using **Playwright with JavaScript**, following **Hybrid Framework** and **Page Object Model (POM)** design principles.

- Created and maintained **BDD Cucumber** feature files, scenario outlines, step definitions, and automation components based on business requirements.
- Executed automated test suites and contributed to maintaining regression coverage by converting stable manual test scenarios into automated test scripts.
- Participated actively in **Agile Scrum** ceremonies including Sprint Planning, Daily Stand-ups, Sprint Reviews, and Retrospectives.

EDUCATION

- 📄 **B.Tech** – Nagpur University | 2021
- 📄 **Diploma** – Nagpur University | 2018

PERSONAL DETAILS

Name : Himanshu J. Dalal.
Father's name : Janardhan P. Dalal.
Current Address : Ahmedabad.
Marital Status : Unmarried.
Languages : English, Hindi, Marathi.

DECLARATION

I Hereby declare that the above furnished details are true to the best of my knowledge.

Date:
Place: Ahmedabad

Himanshu J. Dalal.
